shows it to be 123 2/3 feet but the figures call for 14
feet which I think is an error of 21 feet which is
front of Lot 83. making a total distance of 14
feet from the intersection of Main and Mineral Stre
to the division line of Lots Nos 83 & 84 which agree
with the Scale of the Original Map. I also
established the division line between Lots Nos 82,
& 84 at right angles to Mineral Street. They were
drafted at right angles on the original map but n
bearings were given. I also find there are erro
in the distances given on the rear and diagonal li
on the original map, also the distance on the North
or division between Lots 83 & 84 calls for 185 feet,
the true distance is 158 1/4 feet which was without do
a misplacement of the figures 5 & 8. The area of Lo
83 as I have established it is 23/100 acres, the same a
called for on the original map. I planted stone
on the rear of lot 83 as shown on the accompany
map and I further certify that the accompanyin
map is a correct representation of said Survey
Variation of needle 9 1/2°

Given under my hand this 17th day of July
A.D. 1867

Joel Barber,
County Surveyor

per. James Wilson Jr.
Dept Surveyor

Recorded Aug. 17th 1867

I Joel Barber County Surveyor of Grant County Wis. do hereby certify that I have Surveyed Section 10 of Township 3 North of Range 1 East and have established the lines and corners as represented on the accompanying diagram, and that the distances and variations are correctly expressed on said diagram of Sec. 10
