SURVEYOR'S NOTES:

The description provided [774-708] does not close by 11.67 feet. Therefore the adjoining described in [1276-432] was utilized to retrace the East line of this property.
 The description recorded in [1276-432] did have an unrecorded survey for it signed and sealed by Michael Harding dated 7-31-2008. I would like to note that the deed recorded in [1276-432] had a typographical error in it for the course of: "thence, continuing along said centerline, N 11°18'50" E 175.32 feet;"
 The un-filed survey labeled the course as: "thence, continuing along said centerline, N 13°18'50" E 175.32 feet;" By utilizing the course shown on the survey, the deed description of [1276-432] did close. No monuments were found for this survey and this location was retraced based upon existing monumentation of the Section corners.
 Fences shown on this survey were measured at random locations. The fence may meander between fence corners and are shown for reference only. Possession and occupational rights MAY have been acquired to the fence and it is not known if the fence is a fence of convenience or if it is intended to mark the boundary. This survey was prepared with the intent of following the lines shown and described hereon. Surveyor has made no investigation for easements of record, encumbrances, restrictive covenants, ownership title evidence except as specifically shown on this plat. No distance should be assumed by scaling. No improvements have been located unless shown and noted. No representation as to ownership, use or possession should be hereon implied. Refer to abstract, title or local ordinances for any additional restriction, easements or building setback lines. No abstract, nor title commitment, nor results of title searches were furnished to the surveyor.
